EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a) In the Claims

Cancel claims 31-61.

This application is in condition for allowance except for the presence of claims 31-61 directed to an invention non-elected without traverse. Accordingly, claims 31-61 have been cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: whereas Maeda et al., US Publication No. 2001/0025721 A1 teaches forming in fig. 6, a resist layer 25 in the port, p. 4, ¶ 74, and Obata, JP Publication No. 2003-168696 teaches in drawing 2, forming a resist 6 in the vent 11, p. 2, ¶ 12; neither teaches the features in claim 1, lines 2-6,

“applying a light or energy active resist to a fill port, said resist acting as a temporary hermetic seal;

patterning said resist; and

applying a solder to said fill port;

wherein said solder is configured to serve as a hermetic seal.”

The prior art of record fails to teach, in combination, the process features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William M. Brewster whose telephone number is 571-272-1854. The examiner can normally be reached on Full Time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Smith can be reached on 571-272-1907. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
